

# CITY-PARISH DIGITAL INITIATIVES

Our Department of Information Services is dedicated to creating a more efficient, effective, and responsive City-Parish government through initiatives focused on developing Baton Rouge into a hub for digital and technological innovation.

## SOCIAL MEDIA

[BRGOV.COM/GETSOCIAL](http://BRGOV.COM/GETSOCIAL)

Our social media accounts exist to engage Baton Rouge citizens in meaningful ways – from Facebook and Twitter to live streaming services like Periscope.

## GEOGRAPHIC INFORMATION

[GIS.BRLA.GOV](http://GIS.BRLA.GOV)

- More than 60 web maps and apps
- More than 100 printable reference maps
- Public Safety Common Operational Platform
- 100 dynamic and authoritative public map layers
- Election results

## WAZE

[WAZE.COM](http://WAZE.COM)

We partnered with Waze, a Google-owned traffic and navigation platform, to share our road closure and incident data in real time. We also have access to the platform's crowd-sourced data from more than 35,000 "Wazers" in Baton Rouge, which we are integrating with our GIS program to further enhance our mapping capabilities.

## EXPRESIT

[BRGOV.COM/EXPRESIT](http://BRGOV.COM/EXPRESIT)

Has a City-Parish employee provided you with exceptional service? Let us know through our new feedback system – online or through the free mobile app, available for download in the Apple App Store or the Google Play Store!

## OPEN DATA BR

[DATA.BRLA.GOV](http://DATA.BRLA.GOV)

- Address
- Adjudicated property
- Animal control incidents
- Bid openings & results
- BREC park information
- BRPD crime incidents
- Building permits
- Business information
- Census demographics
- City Court warrants
- Expanded crime data
- Fire incidents
- GIS web services
- Property information
- Public facility listings
- Purchase orders
- Salary data
- Street lighting
- Subdivision listing
- 2015 Tax roll
- Traffic control signs
- Traffic incidents

## RED STICK 311

[311.BRLA.GOV](http://311.BRLA.GOV)

Red Stick 311 is a new way for Baton Rouge citizens to request services and report issues while "on the go" – online or through our free mobile app, available for download in the Apple App Store or the Google Play Store. Residents can even use the platform to monitor the progress of issues they've reported.

## OPEN BUDGET BR

[BUDGET.BRLA.GOV](http://BUDGET.BRLA.GOV)

Open Budget BR launched in early 2015 as an outgrowth of Open Data BR. It is designed to help citizens better understand the annual budget and form a clearer picture of the services, programs, and initiatives the budget supports.
